

This model, although it can be used in many sectors, is especially used in the industrial laundry sector. We can use it to transport both dirty and clean linen or even change its use if the needs require it. It has a base with 4 wheels, two of them swivel and two fixed, which help to move the cage in a simple and practical way.

BREAKDOWN OF PARTS

- 1 base equipped with 2 fixed wheels and 2 castors with a diameter according to requirements.
- 2 sides, one with marking panel.
- 1 rear panel joined to the sides with 4 polyamide 6 flanges (highly resistant).
- 2 hinged half-doors.
- 1 mounting kit for rigidizing the roll container (side-base).

OPTIONS

- Trays.
- Hanger bar.
- Tow bar.
- Cover.
- Card holder.

OPTIONAL FINISHES

- Electro-zinc + mineral-organic SEALING (silver or golden color).

* Please enquire about other finishes.
